

River Rock Technology

Miss. Tomlinson

2016-2017

Overview

Using the computer is a must in today's world. Students will learn keyboarding skills, how to use Google Drive and it's apps for Education, Digital Citizenship, researching skills, and they will complete projects based on their own interests. My philosophy for technology at River Rock Elementary is to make sure that each student has the tools they need to succeed in today's technology-savvy world.

Each student will be expected to take care of the computer equipment, and be respectful and responsible. Each student will have many opportunities to have fun and learn new things, as well as explore their own interests.

Class Content

We will be following the technology core curriculum for grades 3-6. You can view the core curriculum at www.uen.org.

Students will attend computer class for two hours/week on 3-week rotations, for a total of 24 hours per year. Because of the nature of our schedule, using class time wisely is of utmost importance.

Grading

Students will receive a Pass/Fail grade in technology according to the following scale.

Pass (P)	65-100
Needs Improvement (N)	0-64

All assignments will be graded on a participation based scale. You can view the participation rubric by clicking here. <https://goo.gl/euuKT6>

Students grades 3-6 will take a keyboarding test each rotation, scores will be recorded for progress monitoring only.

Disabilities

Students with disabilities will be accommodated following the guidelines for the Americans with Disabilities Act. Please contact me if you feel your child needs to be served.
